

Install Easy-Glide Blinds and you'll never have to use one of these again.

(We thought that might tickle your fancy)

Easy-Glide Blinds

Easy-Glide Blinds is a system which is assembled and permanently sealed within the double glazing cavity. Once sealed in this totally dust-free environment, the blinds require no cleaning, always appear new and are protected from damage.

Easy-Glide Blinds are designed for use in double glazed units. They are manufactured in accordance with high technical specifications and stringent production standards. The rising, lowering and tilting functions are achieved using magnetic transmission through the glass, guaranteeing the units hermetic seal.

Features:

- Simply glide the magnet over the surface of the glass for operation.
- A Range of colours with co-ordinated frames.
- A creative option which allows different frame to slats.
- 28mm sealed unit argon filled as standard.
- Low emissivity toughened glass as standard.
- Clean for life & maintenance free.
- Pristine appearance of blinds at all times.
- No UV degradation.
- Improved solar control.
- Improved u-values.
